MEMORANDUM FOR:

SUBJECT : Notes on Agenda Item No. 1 for PSB Meeting, 23 April 1953

1. This item has been proposed by Mr. C. D. Jackson for general discussion. Several cabinet officers have made follow-up speeches after the President's recent address to the American Society of Newspaper Editors, and Mr. Jackson would like to check with the Board members to find out if it is felt that further speeches are in order.

2. It is the opinion of the PY Division that no benefit would be gained from further speeches and that a continued series of statements by cabinet officers might have the effect of detracting from the impact of the President's speech. It is recommended that the Director indicate that CIA feels that no further effort in this direction is desirable.
